

ELITE

Elite Contracting Group is a full-service Virginia Headquartered SWAM technology contractor specializing in physical security solutions, transportation, and general technology construction solutions for critical infrastructure. Our team thrives on solving complex challenges facing our clients. We have grown to a regional provider of transportation, security, and technology solutions services, recognized for our superior performance on diverse and noteworthy projects.

We maintain a network of staff, equipment, resources and strategic partners so that we can respond effectively to our customers and function as an active member of the local business community. Our management team provides coordination, oversight, and support functions so that we consistency deliver quality.

Elite practices ethical and financial business discipline in every facet of our operation. We are recognized year after year by Dunn and Bradstreet with excellent ratings giving you the assurance of a trusted partner. We maintain a reinvestment plan back into our business, allowing us to grow and remain strong in tough times. Our pride is our people and we take good care of ours with full benefits, cross-training and the latest tools. This philosophy of team support is at our core.

Based on the Elite capabilities overview, we trust we have demonstrated our ability to successfully perform a wide range of support services. Our people, quality of delivery and dedication to our clients, are our greatest strength and key competitive differentiating factor. Every aspect of the development, implementation, installation and client service will be executed by personnel deployed from our local office.
